illuminated by light, the exit opening of the light guide having a shaped configuration, wherein the shaped configuration of the exit opening is projected onto the inner surface of the housing to produce the adjustable shaped light effect at the outer surface of the housing that substantially corresponds to the shaped configuration of the exit opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
